

2017 LIVE UNITED GREENE AND PREBLE COUNTY GRANTS

Greene and Preble County Priorities:

Education and Life Skills: to increasing access to quality early care and learning and building assets in our youth. We are working with educators, schools, legislators and community organizations to develop programs that will make for better, more productive lives for our community's youth and make a stronger community for all.

- Early Care and Learning
- Youth Assets
- Youth graduate from High School
- Young adults go to college or working:

Health and Safety: Whether it is a neighbor without health insurance, a victim of abuse, or someone struggling with mental illness or an addiction, United Way of Greater Dayton Area is working to ensure that those within our community have access to affordable and quality care so they can lead safe, healthy, and rewarding lives. United Way supports local health and human service programs as well as partners with local advocates, healthcare professionals, the business community, and policy makers to create sustainable answers to the current healthcare crisis.

- Access to Health Care
- Healthy Behaviors
- Independence for All

Income and Stability: bringing together partners from business, community organizations and the local government to help lower-income individuals and families achieve financial independence. Our goal is to empower people in need with the tools and skills necessary to maximize their income, gain assets (such as buying a house) and build savings for the future.

- Basic needs
- Financial independence for all

2017 LIVE UNITED COLLECTIVE IMPACT GRANTS

Health and Safety: Domestic Violence; Reduce the number of domestic violence homicides

Domestic violence is the most common form of violence, especially against women. Domestic violence is a major contributor to poor mental and physical health of victims. Children who experience violence are likely to be violent themselves.

Focus Area: Health and Safety		
Priority Area: Domestic Violence		
Project: Increasing Safety for Victims of Domestic Violence \$67,166	Agency	Program Name

Income and Stability

Stable Employment: Increase the number of individuals who have employment stability. (Increase median household income)

*Census figures indicate that over 55,000 working-age Montgomery County residents last worked over five years ago or never worked. The living wage for Montgomery County is reported to be \$9.55/hour for one adult and \$19.92/hour for one adult and one child. The impact of advancing one educational attainment level for 10% of Montgomery County adults ages 25-34 who currently have no post-secondary education would generate over \$13 million in increased earnings annually.

Kindergarten Readiness: 60% of children will be kindergarten-ready
 A significant percentage of Montgomery County children do not have the skills required for kindergarten when they start. Local research indicates that to have an 87% probability of earning a proficient score on the third grade reading test requires a KRA score of at least 18 to 21. Where children start has an impact that cannot be negated by more time in school.

Focus Area: Education and Life Skills

Priority Area: Kindergarten Readiness

Additional Non-Funded Project Partners: Samaritan Behavior Health and Miami Valley Developmental Center.

3rd Grade Reading Proficiency : 100% of children will have 3rd grade reading proficiency
 Too many Montgomery Students are unable to reach the proficient levels in reading by critical points in their elementary school years. There is substantial evidence that proficiency test scores in elementary and middle school are predictive of high school dropout rates. In addition, the proficiency tests themselves are markers of other issues in students' lives, such as food insecurity.

Additional Non-Funded Project Partners: Big Brothers Big Sisters Of The Greater Miami Valley Inc Sinclair Community College Foundation - Project READ, Dayton Public Schools The YMCA Of Greater Dayton

High School Graduation: Increase high school graduation rate to 95%
 High School graduation is critical as an entree to further education and stable employment opportunities. In Montgomery County, only 4 out of every 5 (79.7%) students who entered 9th grade four years earlier graduate from high school. High school drop outs have a very difficult time sustaining even a low-wage job, and earning an income that can sustain family life is problematic.
